

CARDIOVASCULAR DISEASE MANAGEMENT

Community Outreach

Center for Community HEALTH, Urban Health Institute, Johns Hopkins School of Public Health

Employs community health workers to link individuals in the local East Baltimore community to the healthcare system.

- For more information: (410) 502-7270

<http://www.jhsph.edu/urbanhealth>

Diamond Plan Disease Management Programs, Coventry Health Care

Case management and individual education for qualified plan members with diabetes and other chronic health conditions.

- For more information: (866) 533-5154

<http://chcmedicaid-maryland.coventryhealthcare.com/index.htm>

Health of Life/ Salud para la vida, CareFirst BlueCross BlueShield, Baltimore Medical System

Provides education on HTN, diabetes, and obesity through community health workers and classroom lectures. Focus on African American and Latino patients.

For more information: Miriam Kaiser

(410) 558-4077

The Maryland cardio-Vascular Men's Health Promotion (MVP), CareFirst BlueCross BlueShield, University of Maryland School of Pharmacy

Program enrolling African-American men for screening, education, and linkage to healthcare; these men in turn will recruit additional participants and serve as a MVP mentor.
