“Baltimore City recorded its first heat-related fatality for the year yesterday. We know that many heat related deaths are preventable, and so until weather conditions improve, we continue urging residents to check on their neighbors, friends and family, especially seniors and those who live alone,” said Interim Commissioner Olivia Farrow.

Residents in need of energy assistance can visit a Community Action Center to fill out the necessary forms, or stop by the office at 2700 N. Charles St. To get general information, call 410-396-5555.

During periods of extreme heat, the Baltimore City Health Department recommends that city residents:
